The applicant or subdivider/developer, however, by mutual agreement with the Company, may clear the right-of-way, furnish and install the underground supporting structure or open and close a trench for buried services, all in accordance with the Company's construction specifications. The Company in these cases may furnish and install the fixtures and wire or cable at its expense. Ownership of facilities, structures, etc. so provided by applicant shall be vested in the Company.

Nonrecurring charges under this tariff are payable in advance, are non-interest bearing and are not refundable except as specified.

2. Should the amount advanced by the customer exceed the actual cost, a refund will be made within 120 days after completion of the Company's construction.
3. In no instance will the Company charge more than the actual cost at the closing of the job order.

All applicants are grouped in a single project when there is not more than one-half mile of construction between successive applicants. Separate projects are established whenever the construction between any two successive applicants exceeds one-half mile.

4. TEMPORARY OR SPECULATIVE PROJECTS
